

ProSeries™

SIDE MOUNT SAND FILTER

Minimal maintenance for added convenience.

Hayward ProSeries sand filters deliver crystal clear water through advanced pool filter technology for pools of all types and sizes. And, since this sand filter requires minimal care, users will appreciate its added convenience.

The filters are moulded with corrosion-proof self-cleaning polymeric materials. A versatile seven-position control valve offers both easy operation and maximum efficiency.

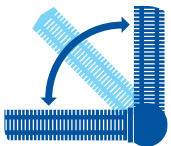

Minimal Maintenance for Added Convenience.

ProSeries™ Side Mount Sand Filters features and benefits:

- Multilateral Underdrain Assembly- with 360 degree slotted, self-cleaning laterals gives totally balanced flow and backwashing
- Hayward Vari-Flo 7 Position Control Valve- with easy to use lever action that lets you dial any of the seven valve/ filter functions
- Manual Air Relief- for easy release of air from system
- Unitized Corrosion-Proof Tank- moulded of tough, durable, colour fast polymeric material for dependable all-weather performance
- Totally Corrosion- Proof Base- is rugged and styled to provide strong, stable support
- Integral Sight Glass- To see when the backwash cycle is complete
- Integral Top Diffuser- ensures even distribution of water over the top of the sand media bed
- Integral Moulded Drain Plug- For easy draining of the tank without loss of sand

Patented Service-Ease Design

Unique folding ball joint design allows lateral assembly to be easily accessed for simple servicing making it more simple than ever!
